

## **AMENDMENT TO THE CLAIMS**

This listing of claims will replace all prior versions and listings of claims in the application:

### **LISTING OF CLAIMS**

Claim 1 (currently amended): A sand-belt finishing machine, comprising a main frame, and two grinding devices, wherein:

the main frame is substantially L-shaped and includes a longitudinal portion and a transverse portion; and

each of the two grinding devices has a first end rested on and fixed to a first side of the longitudinal portion of the main frame, and a second end formed with a free end.

Claim 2 (currently amended): The sand-belt finishing machine in accordance with claim 1, wherein the longitudinal portion and the transverse portion of the main frame form ~~[[an]]~~ a substantially L-shaped opened space.

Claim 3 (currently amended): The sand-belt finishing machine in accordance with claim 2, wherein the two grinding devices are located in the opened space formed by the longitudinal portion and the transverse portion of the main frame and supported by the longitudinal portion of the main frame.

Claim 4 (currently amended): The sand-belt finishing machine in accordance with claim 1, wherein the longitudinal portion of the main frame is ~~connected~~ combined with the transverse portion of the main frame.

Claim 5 (currently amended): The sand-belt finishing machine in accordance with claim 1, further comprising a driving device mounted on and protruded outward from a second side of the longitudinal portion of the main frame for driving the two grinding devices.

Claim 6 (currently amended): The sand-belt finishing machine in accordance with claim 1, further comprising a lift device mounted on the transverse portion of the main frame, and ~~includes~~ including a lift platform that is movable relative to the two grinding devices and the transverse portion of the main frame.
